## From The Principal's Desk...

*"Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents with high expectations".*

Dear Parents,

Today, the role of a school is not only to pursue the academic excellence but also to motivate and empower the students to be lifelong learners, critical thinkers and productive members of an ever changing global society. Converting every individual into a self-reliant and independent citizen, our school provides an amalgam of scholastic and co-scholastic activities.

The world today is changing at such an accelerated rate that we as educators should reflect and encourage students to adopt good cultural values along with academic excellence. We, at Bal Bharati, focus on child-centric pedagogy which helps our children explore new dimensions in a conducive environment with a blend of On-line and Off-line learning in these testing times.

Hoping the school campus reverberates with the noise and laughter of the children in the near future, I take the opportunity to wish good health to one and all.

May God be with you!

Arvind Bhatia  
Principal
