**THEME - MEANS OF TRANSPORT**

**(यतायात है बहुत ज़रूरी संगी साथियों की मिटाये दूरी)**

**Transport** helps us move from one place to another. There are different types of transport we use every day. Cars and buses move on the roads. Trains run on tracks, and some, like the metro, even go underground in tunnels. Boats and ships help us travel on water, and airplanes fly high in the sky. All these types of transport make it easy for us to go to school, visit friends, or travel to faraway places.

## VALUE FOR THE MONTH OF NOVEMBER:

### Integration of SD Goals -

Good health and well-being (SDG-3) To promote safe and healthy transportation practices, emphasizing the importance of seat belts, etc.

Non-polluting fuels Solar Energy & electricity.

Integrating Sustainable Development Goal 3 (Good Health and Well-Being) with safe transportation practices and clean energy can create a holistic approach to improving public health and environmental sustainability. Here's how these elements can be connected:

GOAL 3

## FESTIVALS OF THE MONTH

### BHAI DOOJ

Bhai Dooj is one of the festivals that celebrates the special bond of unconditional love and trust shared between a brother and sister. This festival is celebrated two days after Diwali. On this day, the sister puts tilak on her brother's forehead and prays to God for their well-being. In return, the brother follows his responsibility of caring and loving his sister.

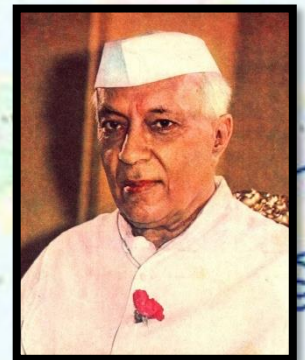

### CHILDREN'S DAY

*"The children of today will make the India of tomorrow "*

*- Pt Jawaharlal Nehru*

Children's Day or Baal Diwas is celebrated every year across the country on 14th November to mark the birth anniversary of Pt. Jawaharlal Nehru, the first Prime Minister of India. Mr. Nehru was very fond of kids and therefore his birthday is celebrated as Children's Day. He was lovingly called Chacha Nehru by everyone. He used to pin a red rose on the collar of his jacket. Children love to dress up in the same way. They offer roses to his portrait/statue as a mark of respect and love towards him.

## STORIES

### The Wheel Genius

Long ago, people carried heavy loads on their backs. A clever potter named Jagdish wanted to make life easier.

One day, while spinning his pottery wheel, Jagdish had an idea. "Why not use a round shape to move heavy things?" he exclaimed.

Jagdish carved a wooden log into a circle and attached it to a stick. He added another circle on the other end.

"Ta-da!" Jagdish's wheel was born!

At first, people laughed. "What's the point of a round thing?" they asked.

But Jagdish showed them how the wheel could roll heavy loads with ease.

Soon, villagers used Jagdish's wheel to transport goods, water, and even themselves!
