PUBLIC SCHOOL

BRIJ VIHAR, GHAZIABAD

Online Session – Field Visit and Idea Creation

School Innovation Cell (MoE)

Bal Bharati Public School, Brij Vihar, facilitated an on-line session where students viewed a video received from the School Innovation Cell. The session was delivered by **Shri Arjun Panchal**, an accomplished entrepreneur, startup mentor, author, and public speaker, who served as the resource person for the programme.

The primary aim of the session was to introduce students to the systematic process of generating innovative ideas and to nurture their creative and critical thinking skills. Shri Panchal encouraged students to develop curiosity, creativity, and confidence while refining their ideas into practical and feasible concepts. Through the session, students were encouraged to observe real-world challenges, think creatively, and develop practical solutions, thereby fostering a strong entrepreneurial mindset.

By integrating insights from experienced resource person and structured ideation techniques, the programme successfully motivated students to explore problem-solving, innovation, and entrepreneurship, laying a strong foundation for their future endeavours in creative and innovative pursuits.
