

Online Session on Developing Entrepreneurial Skills

School Innovation Cell (MoE)

As part of its continuous efforts to nurture creativity and an innovative mindset among learners, an insightful online session on “Developing Entrepreneurial Skills” was conducted by Bal Bharati Public School, Brij Vihar under the auspices of the **School Innovation Council** established by the Ministry of Education (MoE). The session aimed at inspiring and equipping students with the competencies necessary for nurturing ideation, design thinking, entrepreneurial mindset and action.

The video showcased enriching perspectives on innovation and the ideation process delivered by distinguished speaker **Shri P. V. M. Rao from Indian Institute of Technology ,Delhi**. Through real-life examples and insightful discussions, the speakers emphasized the importance of identifying problems, generating creative solutions, and transforming ideas into impactful innovations.

The session witnessed enthusiastic participation of students, guided by mentors and SIC coordinators devoted to fostering innovation and enterprise among the learners.

The session was truly motivating and left a lasting impact on the students. It encouraged them to think analytically, explore innovative ideas, and adopt a practical, solution-driven approach to real-life challenges. The programme played a significant role in cultivating a spirit of innovation and progressive thinking among the learners. It also deepened their understanding of entrepreneurship and helped them develop the essential mindset, confidence, and strategies needed to succeed in the future.
